

Representation of colour and movement in clouds and tree using organic shapes, effectively counterbalance the linear buildings

Linear qualities in the building and the tree demonstrate accomplished drawing skills and mark making

Flagpole in foreground acts as an axis in dividing space within the composition. This strong visual element uses line to create direction, complementing and connecting the buildings and tree

The openness and simplicity of the voids contrast the detail, pattern and colour, reflecting a knowledgeable approach to the representation of compositional devices

### Grade Commentary

Jo has made a successful etching incorporating sensitive use of line and hand colouring that enhances the subjective qualities of the artwork. The expressive, imaginative use of colour demonstrates a distinctive and personal response to the site. The artwork conveys fine observational skills, drawing and mark making appropriate to the etching technique. The application of perspective successfully creates a number of focal points. Jo's work sample demonstrates characteristics of work typically produced by a student performing at grade A standard.
